for one full day  
during shooting

## All Access Backstage Pass

Ask inside for full  
details of how you  
can hang out with  
Hollywood stars!

Hollywood professionals, including well-known actors, are coming to Greencastle and we have made arrangements with Clean Slate Films for one or more of our customers to watch them work with a VIP All Access pass. While most of the town hangs out and hopes to be seen in the background, you will be eating lunch with the stars. While they wait for the premiere to see any footage, you will be able to see the “dailies” from the previous day’s shooting. You will be invited to all locations on the given day and will be given breakfast and lunch.

The general public is forbidden to be in certain locations during shooting, but the cast, crew, and anyone bearing a VIP All Access pass can come and go as they please. Clean Slate Films has provided a limited number of VIP All Access passes and we have acquired a number of them.

We are giving the pass or passes away at our discretion as we so choose. Clean Slate Films asks in return that the bearer of the pass follow the rules of decorum while they are a guest, and if necessary the passes may be revoked if the guest exhibits disruptive behavior.

The guest is not permitted to select which day he or she visits, but Clean Slate Films will attempt to arrange it on a day on which the primary stars are scheduled to shoot.

Unfortunately Clean Slate Films cannot reschedule should the guest be unable to attend on the selected date, but they will attempt to accommodate the guest if possible.

This is a once-in-a-lifetime chance to get an exclusive behind the scenes look at what happens during an ordinary day of shooting a feature film.
